

S & V's VARIETY - MORE THEN JUST CONVENIENCE

Comment [f1]:

The town of Warren has been blessed with a variety store for 2 years now.
Steve & Sylvie would like to THANK their regular supporters.

During a brief interview with the owners of S & V's Variety they expressed their wishes to expand their business to accommodate their clientele and attract new customers.

They have a few initiatives lined up such as a 649 LOTTERY CENTRE which will be available commencing AUGUST 19th. They have also made contact with SEARS and LCBO in hopes of becoming a distributor for these retailers. Arrangements for a YEAR-ROUND CHIPSTAND are also in the works that would be located in the S & V's parking lot.

But in order to remain operational and expand their business they need the support from "you" the locals.

As business owners, their goal is to satisfy the needs of the residents. They invite the public to give suggestions as to what they would like to see available on the store shelves.

They also have a wide variety of suppliers that can benefit local committees and event organizers.

The Town was without a convenience store for 2 years and the impact was felt by many. I encourage everyone to support these local entrepreneurs. With the rising cost of gas, it is more economical to purchase necessities such as bread, milk and confectionary at S&V's Variety.

S&V's opening was based on a survey that was distributed to the locals.

All surveys showed there was a need for a variety store in Warren; therefore if we all do our part in supporting S&V's Variety, we will be contributing to their business success and expansion for years to come.
